PUHON: *A Web Project for Donations and Life Stories*

1. Meaning and Purpose

The name "**PUHON**" comes from the Bisaya word meaning "**someday**". It reflects our hope that someday the people we help will thrive, achieve their goals, and improve their lives. This platform encourages giving, learning from real-life stories, and supporting those in need of basic human necessities such as food, clothing, and shelter.

Even though we are young high school students, we can still see the realities of life. We have our own goals to grow up stable, responsible, and civilized, and we aim to help those in need and those seeking guidance. This project allows us to contribute positively to our community while learning from real experiences.

---

2. Reason for Choosing the Topic

Our group chose the topic "Puhon" to create a platform that helps people in need. Many individuals in Butuan City, Philippines still struggle to meet basic human needs such as food, clothes, and shelter, and government programs or other support systems sometimes cannot reach them in time.

The goals of this project are:

- Provide a platform for donations where even small contributions can improve someone's life.

- Share real stories of people whose lives changed because of help from others, inspiring more people to give.

- Ensure donations are useful, helping people access jobs, training, or guidance to improve their quality of life.

- Encourage community participation, showing that students can contribute meaningfully.

- Use technology to make donating, learning, and helping more accessible and convenient.

- Combine learning and action, so users can both give and understand the real experiences of those helped**.**

The platform is also designed to expand in the future, allowing collaboration with other communities beyond Butuan City.

3. Individual Contributions

Group Member	Contribution
Crish Paulette C. Radaza	Designed the homepage layout, header, footer, and main page design, and helped in making the project document.
Earl Cedrick Pacot	Built the Services / Products and Contact pages, added content, ensured usability, and coordinated the GitHub repository setup.
Noreen Ann A. Novo	Developed the Blog / News page, added posts and updates, ensured clear presentation, and helped in making the project document.
Crish Paulette C. Radaza	Also created the About page with information about the owner/organization.
All Members	Took screenshots, documented progress
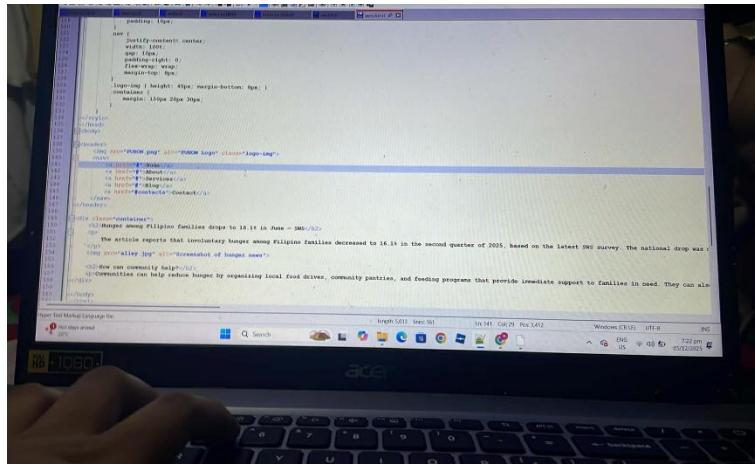

4. Project Pages and Responsibilities

1. Home – the main page of the website
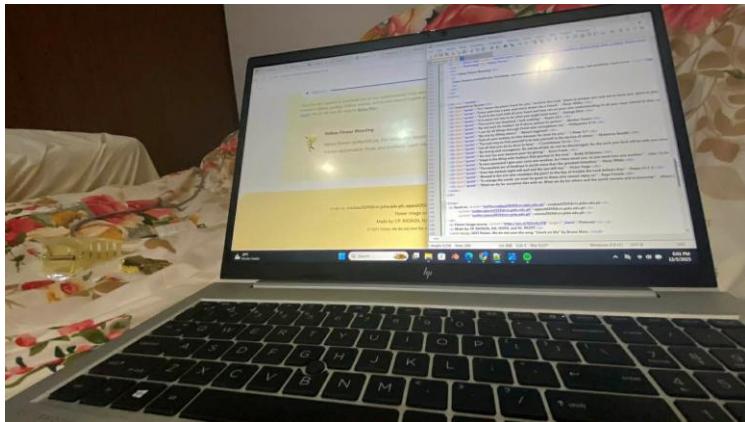

o Responsible: Crish Paulette C. Radaza

2. About – information about the owner or organization

   o Responsible: Crish Paulette C. Radaza

3. Services / Products – details of what is offered or provided

   o Responsible: Earl Cedrick Pacot

4. Blog / News – posts, updates, and stories

   o Responsible: Noreen Ann A. Novo

5. Contact – includes email, phone number, and contact form

   o Responsible: Earl Cedrick Pacot

The PUHON web project demonstrates how technology can be used to help people meet their basic needs, inspire hope, and promote positive change in the community. Through donations, real-life stories, and community participation, the platform encourages responsible giving and provides a way for students and citizens to make a meaningful contribution. We believe that even small efforts can create lasting impact, and Puhon shows that helping others can be accessible, engaging, and effective.
